The 3-5 Pricing Strategy

The Market Sets The Price

When pricing a home, we try to value it like an appraiser would. We access accurate, up-to-date MLS data and select 3 to 5 active, pending, and sold properties that are the most similar to your home to evaluate what that price should be.

The real estate market is fluid and this method assures your home is positioned to sell for the highest price possible.

Presentation

PRESENTATION

Today's home buyers are more informed and savvy armed than ever. You only have one chance to make a first impression and it's imperative your home looks it's absolute best. Otherwise, you risk your home getting rejected by potential buyers before they have even had a chance to walk through the front door. When you work with our team, we'll ensure your home leaves a lasting impression and motivate buyers to see the property in person. Every property has different marketing needs and after a brief consultation, we'll recommend a custom marketing plan for your home. This could include...
