

Ozone Therapy

Ozone therapy is an immune enhancement treatment to combat daily stress and deliver quick recovery, aid in weight loss and balance the body, mind, and spirit.

Ozone therapy is a versatile self-repair technology that heals and detoxifies the body as a whole. Ozone is a highly active form of oxygen that fights viruses, bacteria, mold and fungus. Oxygen molecules, O₂, have two oxygen atoms while ozone molecules, O₃, contain three oxygen atoms. This atom increases the amount of oxygen circulating in the body. Ozone therapy is scientifically proven to stimulate local stem cells to repair tissue, assist with pain management, weight loss and anti-aging.

LA one

REJUVENATING

LA ONE wellness center integrates massage therapy making a well-rounded approach to health and well-being. LA ONE provides a diverse range of massage techniques, including Swedish, deep tissue, aromatherapy, and reflexology, in conjunction with other holistic practices.

The objective is to achieve a balanced state of mind, body, and spirit, ultimately enhancing overall wellness and relaxation.

Along with the benefits of full body massage, body contouring treatments targets stubborn fat deposits, effectively contouring and reshaping your body. By harnessing the power of advanced technology, Body Monster Sculpting helps to break down fat cells, leading to a more toned and defined appearance. Clients can expect noticeable improvements in their silhouette, boosting confidence and promoting a healthier lifestyle. This non-invasive procedure is a perfect complement to any wellness regime, ensuring you look and feel your best.

At LA ONE, our mission is to ensure that our clients receive the highest level of care and treatment, so they leave feeling and looking their absolute best.
